

APPRENTICESHIP & CYBERSECURITY

Cybersecurity is a critical industry that protects our most important and private information. However, there is a severe shortage of qualified cybersecurity workers, especially with today's constantly changing cybersecurity needs.¹ The solution: Apprenticeship.

Apprenticeship is a proven solution for recruiting, training, and retaining world-class cybersecurity talent and has been an effective training model for enhancing companies' performance and competitiveness.

In Demand Occupations in Cybersecurity

- *Information Security Analyst*
- *Cybersecurity First Responder*
- *Computer Systems Analyst*
- *Cybersecurity Support Technician*
- *Application Developer*
- *IT Project Manager*
- *Network Support Technician*

Cybersecurity is a rewarding, high-demand industry in desperate need of passionate, capable workers. Cybersecurity specialists protect our right to privacy, help corporations stay competitive, and guard our national security.² - Franklin Apprenticeship

To learn more about apprenticeship programs for your business, contact Clark University at techbuild@clarku.edu

TechBuild is an equal opportunity program fully supported by the U.S. Department of Labor Employment and Training Administration (ETA) as part of an award totaling \$5.75 million with \$5 million (85 percent) funded by DOLETA and \$750,000 (15 percent) funded by non-governmental sources.
